zardarimujahid0@gmail.com

Nawabshah Sindh Pakistan

SUMMARY

Computer Systems Engineering undergraduate with expertise in full-stack development (PHP, MySQL, JavaScript) and automation. Proven ability to build scalable web applications, lead teams, and deliver solutions with a 30%+ efficiency boost. Passionate about open-source contributions and system optimization. Seeking impactful roles in software engineering.

EDUCATION

Quaid-e-Awam University of Engineering, Science & Technology

Bachelor's in Computer Systems Engineering
2023 – Present

Govt. Degree College

Pre-Engineering | 2019 – 2021

SKILLS

- Languages:** C++, Java, Python, PHP, JavaScript (ES6+)
- Frontend:** HTML5, CSS3, Bootstrap, React (Basic)
- Backend:** PHP, MySQL, RESTful APIs
- Tools:** Git/GitHub, VS Code, XAMPP
- Soft Skills:** Leadership, Agile Collaboration, Problem-Solving

CERTIFICATIONS

- Career Essentials in Generative AI** – Microsoft (March 2025)
- CS50: AI with Python** – HarvardX (Credential ID: 1234567890)
- Frontend Web Development** – Hightec (Jun 2024 – Aug 2024)
- Data Analytics Job Simulation** – Forage (Nov 2024)
- Create Your First Python Program** – Coursera (Dec 2024)

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern

CoreTech Innovation | June 2025 – July 2025

- Developed a scalable e-commerce platform using PHP and MySQL, reducing load time by 30%.
- Built the official company website for CoreTech with dynamic pages and responsive design.
- Worked on both frontend and backend tasks, improving project workflows and development efficiency.

Frontend Developer Intern

iCreativz Technologies | June 2024– August 2024

- Built a banking system UI with role-based dashboards, improving user satisfaction by 25%.
- Fixed 50+ UI bugs and enhanced mobile responsiveness using Bootstrap.

LEADERSHIP

Webinar Host – "Project Skills for the Future"

SDS x QUEST | June 2025

- Organized an 80+ attendee webinar on tech trends, promoted via university channels.

Team Lead – Student Record Manager

CSE QUEST | Jan 2024

- Led a 3-member team to develop a full-stack academic records system (PHP/MySQL).
